FRIENDSTER IN AUGUST

"New faces, old faces, for some members all are old faces but for me it was a mixture of both. On the Friday of 26th August 2005, as the Spicy Friendster group coordinator, we have arranged a Karaoke gathering as well as the celebration of our lovely P Jessie's 2X's birthday. It was a good time for me to get some updated information regarding SJC. And the most important thing was that I could feel that all the members are very supportive like a family." LOVE OF THE EARTH 2005 EXCHANGE CAMP - AUGUST

Full of passion and energy, "Love of the Earth 2005 - Environmental Protection and Culture Exchange Camp 2005" was successfully kicked off under a soft sunshine in Jiangmen, China. Over hundred participants from Japan, China and Hong Kong gathered in Jiangmen to dig out the time capsule buried five years ago in project "Love of the Earth 2000" as well as for environmental protection and culture exchange.

This exchange camp was one of the biggest projects of the year, and it was jointly organized by three organizations, Wakayama Junior Chamber (WJC), the Jiangmen Youth Federation (JYF) of China and Sha Tin Junior Chamber (SJC). Target participants are junior high school students from Wakayama, Jiangmen and Hong Kong. This Environmental Protection and Culture Exchange Camp provided the students a good opportunity to exchange different aspects of environmental protection and nature appreciation

Waiting for five years, students eagerly dig out their wishes

Gift Exchange among students from three Jiangmen, Wakayama and HK

This 3-day, 2-night camp was fully packed with various interesting and educational programs: nature soap making, Eco-tour in Jiangmen, environmental protection youth forum and interactive games. Students have shared a lot of their insights of environmental protection from their presentations. It was glad to see the messages of nature protection and preservation were effectively conveyed to our next generation.

Looking forward to Love of the Earth 2010!!
